

Luke Clement
Fire Safety & Medical Manager

Luke Clement, a native of Newton, relocated to Iowa in May 2006 after two years working as a full time nationally registered paramedic for Johnson County Kansas, in the south west suburban area near Kansas City. Clement returned to Newton, Iowa for the opportunity to develop, manage, and coordinate the Fire Safety and Medical program for the Iowa Speedway. He is also currently employed part time with the Newton Fire Department as a firefighter/paramedic and is a member of the IndyCar Delphi Safety Team traveling to several IndyCar events this 2009 season.

"Working for the Iowa Speedway is a huge honor and challenge; it's something new each and every day. We hold our facility and staff to a high standard and not only do we continue to strive to meet the expectations of sanctioning bodies and spectators, but we also do what ever we can to exceed them," said Clement.

Clement continues to reside in Newton.
